

# *TAKE THE BAIT*

**"Don't Take the Bait" has become all that we hear these days- from the politicians, the media, and the political establishment. They see the daily kidnappings and disappearances as an issue to score political points on, not as what it is: a direct attack on our freedom. But from Chicago to L.A. to Rochester, N.Y., we have seen another approach: fighting back. When we come together, we can push I.C.E. out of neighborhoods. We cannot rely on politicians to protect us. Rebellion is the only thing capable of stopping the advance of authoritarian control. They will take exactly as much power as we let them. Deploying the National Guard is not bait- it is meant to intimidate us into submission. Let's not bow to authoritarianism, attack I.C.E. everywhere: In the streets, at their homes, and everywhere. Find each other, make plans, and hit them where it hurts.**

**WHEN OBEDIENCE ENDS LIFE CAN FINALLY BEGIN!**
